Sign In

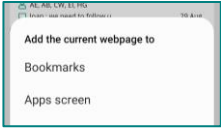

Login using your **email address** and windows password:

Quickly and easily access the app by saving to your home screen on your mobile:

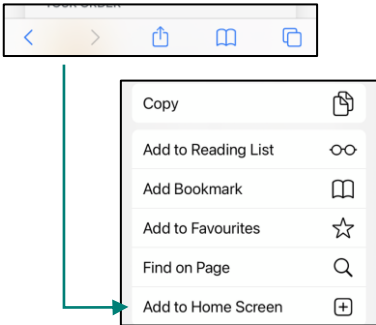

Android devices

- Once you have the website open, Tap the menu button
- Add page to
- Add to Apps screen

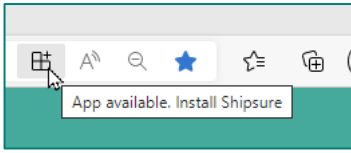

Apple devices

Once you have the website open, click the “share” arrow and scroll down until you find **Add to Home Screen**

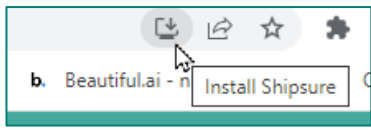

Desktop

In **Edge**, click the icon to install ShipSure on the address bar:

In **Chrome**, click the icon to install ShipSure on the address bar:

Vessel Selector

Click here to select a fleet or vessel.  
Create and edit Favourite vessel lists.

V.Chat

V.Chat allows you to create discussions with key contacts and link to any item in ShipSure, keeping related messages with the detail, like a message related to a P.O. or a critical maintenance job.

Key Indicators

V.Ships KPIs are immediately available, showing green where we meet our targets. Tap the measure for more detail.

Tabs

Overview

View Key Indicators for selected fleets/vessels

Vessels

View ShipSure Modules for each vessel  
View Position List  
Contact details for Vessel and Agents

Map

View vessel position, route and Weather conditions and alerts.

Approvals

View and action your approvals:

- Close PMS Jobs
- Close Inspections
- Authorise JSA
- Authorise Purchase Order

My Notes

Use My Notes for private notes and set reminders. You can also email or create a chat directly from a note you've added.

Vessel List

The vessels page shows a summary of items for each ShipSure Module.

Module Listing

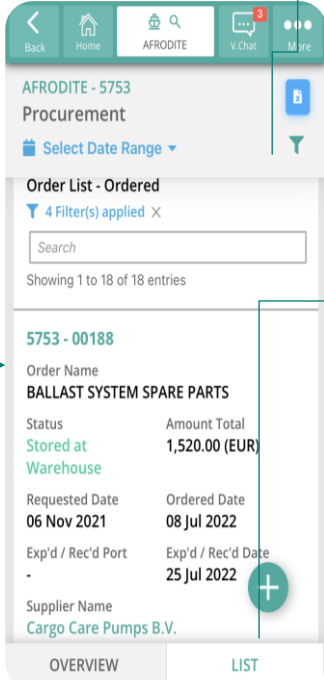

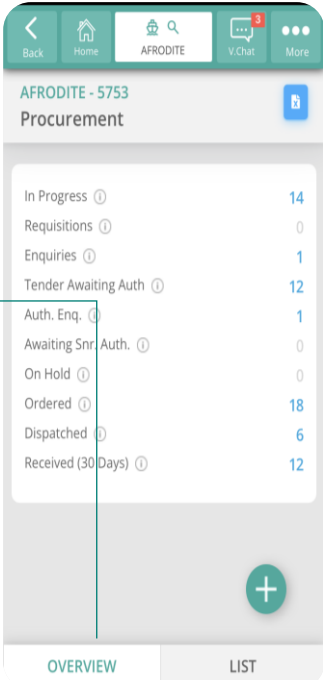

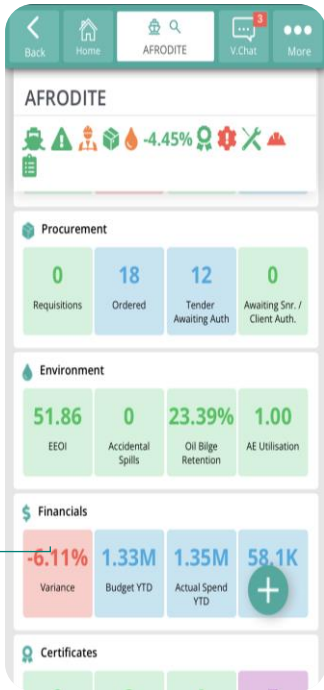

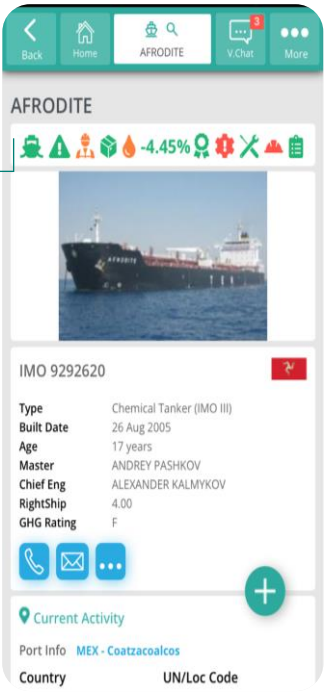

Each module has colour coded links highlighting areas for concern. Tap on a heading to open an area, or a cube for a filtered list.

Module View

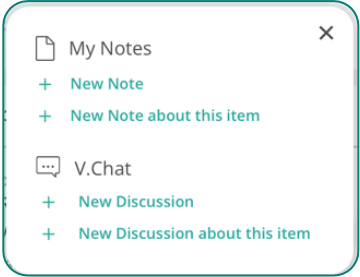

You'll see an overview page showing a summary. Tap a number to view the entry.

You'll see an list page showing a summary. Add and clear filters such as date or status.

Colour coded icons display at a glance information on each area, for example a red defect icon means there are overdue defects. Tap an icon to move quickly to that section.

The + button appears throughout the app where you can quickly add a note or chat...when you are viewing a record (like a PO), you'll see “about this item”, which will create a link from the chat or note to the item.

There are also other options throughout the app:

Export to Excel – us this for working lists like Expenses

Use filters to help you find an item.

Download invoices, certificates and attachments where you see this icon.
